

HASSAN WILSON

Round Rock, TX • knitex303@gmail.com • (737) 314-7528

Full Stack Software Engineer; AI, Kotlin & Android Mobile App Developer with over 10 years of professional coding experience in a variety of different coding languages. Other coding languages include: Java, JavaScript, Python, C++, C#, HTML, MySQL, MSSQL, BlueJ.

Content Creator and Strategist: Over 10 years of experience with videography, graphic designing, SEO implementing and editing. An expertise in the Adobe Creative Suite, Davinci, Canva, Figma, Microsoft Suite, Google Docs, Mobilize, Buffer, Trello and analytics monitoring systems.

Relevant Experience

- **Kamala Harris For President - Content and Digital Strategist (Deputy Digital Director)**

2024 - Nov. 2024

Planning, developing, and managing an organization's online presence and content strategy. I focus on aligning digital content with business goals to engage target audiences, drive traffic, and generate leads or conversions for the Kamala Harris campaign. Lead photographer/Videographer as well as the motorcade photographer for President's when needed. Developed and coded an automation system to extract Data from NGP VAN to update ballot status. Assisted the director of I.T. with managing network connectivity, installing security systems, and wiring. Assisted in warming lines at voting centers, drive volunteers to knock door disband distribution of lit, snacks, and signage.

- **Viva Renter and investor dashboard:**

2021 - 2023

I designed the projections graph for the renter and landlord dashboard, debugging any bugs before release. We are currently using Bubble.io which has little to no code. I am working on the backend api using Javascript to connect our bank account to our platform.

Website: www.viva.fund

- **Jaquita Wilson for City Council:**

2021

Created, developed, and managed the website and tech for the campaign. Designed and order signage as well as create a map of sign placements via NGP VAN. Trained volunteers to use NGP VAN and cut turf.

- **Christine Mann for Congress:**

2018-2020

Because of this being a small scaled campaign, I've taken on many different positions. Primarily, I worked as a field organizer, graphics designer, and under the operations team. Whether it was to put up signs, warm up lines, design strategies, or purchase material and equipment, no job was too small.
